Subject: GS-11B-19066, Bid Package No. 2, Headquarters Building,
CIA Headquarters Expansion, Langley, Virginia, File A5-
01170, RF Shielding Supervisor

Gentlemen:

Reference is made to your past discussions and correspondence relative to the above subject.

Recently, on October 17, 1985, your RF consultant and your RF supervisor together with others from this office reviewed some of the ongoing shielding work. The consultant, your Mr. Fred Helene appeared to be genuinely concerned to about "slot openings" that were pointed out to him. There appeared to be no doubt in Mr. Helene's mind that the condition, if undetected and not corrected would compromise the entire RF shielding concept.

Accordingly, you are herewith advised that if there is no immediate improvement in overseeing the RF shielding work by dedicating more time and attention to the task that this office will withdraw its previous conditional approval agreement.

Your immediate attention to this important part of the contract is urgently requested.

Sincerely,

Arthur J. Carlucci
Project Manager
Headquarters Expansion Project
